

Microsoft Outlook

Click Tools → Accounts (or Account Settings) → Double Click Your Email Account ex. Pop.cvinternet.net
→ More Settings → Check the box that says “My outgoing server (SMTP) requires authentication”

The screenshot shows the 'Internet E-mail Settings' dialog box with the 'Outgoing Server' tab selected. The 'My outgoing server (SMTP) requires authentication' checkbox is checked. Below it, the 'Use same settings as my incoming mail server' radio button is selected. There are also fields for 'User Name' and 'Password', a 'Remember password' checkbox (checked), a 'Require Secure Password Authentication (SPA)' checkbox (unchecked), and a 'Log on to incoming mail server before sending mail' radio button (unchecked). 'OK' and 'Cancel' buttons are at the bottom.

Internet E-mail Settings

General | **Outgoing Server** | Connection | Advanced

My outgoing server (SMTP) requires authentication:

Use same settings as my incoming mail server

Log on using

User Name:

Password:

Remember password

Require Secure Password Authentication (SPA)

Log on to incoming mail server before sending mail

OK Cancel
